

MEMORIAL FLIGHT RULES:

Effective March 2021

INTRODUCTION:

This event is to allow flyers to fly free flight scale models constructed by other modellers now no longer with us or able to compete them. The class is for flying only. The usual requirement for the model to be built by whomever enters it is therefore not required in this scale class.

- A.** Models must be built by someone other than the flyer entering them.
- B.** The 'Builder of the model' rule does not apply.
- C.** The class is for flying only there will be no static judging.
- D.** Models may be powered by an ic engine, electric, rubber or CO2.

SCORING K FACTORS:

- | | |
|--|-----------------|
| A. Take-off (optional) | Up to 20 points |
| B. Initial climb, | Up to 20 points |
| C. Descent and landing approach | Up to 20 points |
| D. Realism in fight
(speed, 'sit', stability and character). | Up to 40 points |
